

MY TOWN, DERECSKE

The background features a vibrant, abstract design. It consists of several flowing, ribbon-like shapes in shades of green and yellow, which appear to be moving across the frame. These shapes are set against a background that transitions from a deep red on the left to a bright cyan on the right. The overall effect is dynamic and modern.

...AND THE DAY OF THE TOWN IN JUNE.

My favourite place is the park.
I like being here with my friends.

SUSTAINABILITY IN DERECSKE

You can buy from local farmers at the market. They sell their home-grown fruit, vegetables, flowers, eggs, honey and sausages.

GARBAGE

Each household has a recycling bin. We collect paper, plastic, aluminium separately.

At school we collect
paper twice a year.

Every year there are
two Dump Days in
Derecske.

They are perfect to reuse.

In Makkay
Square we can
collect plastic
bottle tops.

THX for watching

I hope u enjoyed
